

6) Create a User Creation Screen by using all elements in it (like List, Radio button, Drop down, CheckBox)

Sure, here's a simple example of a user creation screen using HTML and CSS:

```
` `` html

<!DOCTYPE html>

<html lang="en">

<head>

  <meta charset="UTF-8">

  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title>User Creation Screen</title>

  <style>

    body {

      font-family: Arial, sans-serif;

    }

    .container {

      max-width: 400px;

      margin: 0 auto;

      padding: 20px;

      border: 1px solid #ccc;

      border-radius: 5px;

      box-shadow: 0 2px 5px rgba(0, 0, 0, 0.1);

    }

    .form-group {

      margin-bottom: 20px;

    }

  </style>

</head>

<body>

  <div class="container">

    <div class="form-group">

      <input type="text" value="Name" />

    </div>

    <div class="form-group">

      <input type="password" value="Password" />

    </div>

    <div class="form-group">

      <input type="checkbox" /> I agree with the terms and conditions

    </div>

    <div class="form-group">

      <input type="button" value="Create User" />

    </div>

  </div>

</body>

</html>
```

```
label {  
    display: block;  
    font-weight: bold;  
    margin-bottom: 5px;  
}  
  
input[type="text"], select {  
    width: 100%;  
    padding: 8px;  
    border: 1px solid #ccc;  
    border-radius: 3px;  
    box-sizing: border-box;  
}  
  
.checkbox-group {  
    margin-top: 10px;  
}  
  
.checkbox-group label {  
    display: block;  
}  
  
button {  
    background-color: #4CAF50;  
    color: white;  
    padding: 10px 20px;  
    border: none;  
    border-radius: 3px;  
    cursor: pointer;  
}  
  
button:hover {  
    background-color: #45a049;
```

```
}  
</style>  
</head>  
<body>  
  <div class="container">  
    <h2>User Creation</h2>  
    <form>  
      <div class="form-group">  
        <label for="username">Username:</label>  
        <input type="text" id="username" name="username">  
      </div>  
      <div class="form-group">  
        <label for="email">Email:</label>  
        <input type="text" id="email" name="email">  
      </div>  
      <div class="form-group">  
        <label for="gender">Gender:</label>  
        <select id="gender" name="gender">  
          <option value="male">Male</option>  
          <option value="female">Female</option>  
          <option value="other">Other</option>  
        </select>  
      </div>  
      <div class="form-group">  
        <label>Interests:</label>  
        <div class="checkbox-group">  
          <label><input type="checkbox" name="interests" value="sports">Sports</label>  
          <label><input type="checkbox" name="interests" value="music">Music</label>
```

```
<label><input type="checkbox" name="interests" value="movies">Movies</label>

</div>

</div>

<div class="form-group">

  <label for="country">Country:</label>

  <select id="country" name="country">

    <option value="USA">USA</option>

    <option value="Canada">Canada</option>

    <option value="UK">UK</option>

    <option value="Australia">Australia</option>

    <!-- Add more options as needed -->

  </select>

</div>

<button type="submit">Create User</button>

</form>

</div>

</body>

</html>

` ``
```

This HTML/CSS code creates a basic user creation form with text inputs, dropdowns, checkboxes, and a submit button. You can customize it further according to your needs.
